WHAT IS QUICK SHIP?

Quick Ship (**QS**) items are non-stock (special order) products we have sourced that typically deliver into all of Western Washington within 3 to 4 business days (perhaps sooner in some cases) pending account credit approval. Our Alaska customers should take into account the additional time and shipping expense it will take to forward these items to your local area.

Terms & Conditions:

1. All special orders are subject to Sysco credit department approval. Payment terms are those already established with each individual Sysco customer. Any deviation to payment terms must be negotiated prior to order approval and order placement. Down payment may be required in some cases.
2. Individual items costing $5,000.00 and up require the signature of a Security Agreement to facilitate filing of a mandatory UCC (uniform commercial code) with the state in which the transaction is made.
3. For our customers paying by credit card, a customary service fee will be added to total cost.
4. Sysco reserves the right to correct any pricing errors and pass along any unanticipated LTL fuel surcharge fees and shipping fees that exceed our quoted rates.
5. Should delay in delivery be due to the job site not being prepared to receive equipment, it shall be the responsibility of customer to pay any storage and re-delivery fees that may apply.

Delivery of Major Equipment

6. Customer must pre-determine items being purchased not only fit properly but also take into consideration any obstacles that may hinder access into building and its final location. Additionally, the customer must provide the appropriate power requirements (voltage and/or gas type).
7. Purchases of major equipment (items 250 lbs. and up) are shipped direct. Unless specified otherwise, deliveries will be made by a common carrier truck of shipper's choice "with" lift gate service. Unless specified otherwise, all deliveries are "curb side" only which means the customer is responsible to have sufficient manpower to move items into your building.
8. Customer is responsible for inspecting each item upon arrival for any damage to carton. Even the slightest wrinkle or rub mark on carton's exterior may indicate concealed damage within and must be noted on carrier's bill of lading (prior to) signing for delivery. Customer has the right to deny delivery of any item that is noticeably damaged. Should any concealed damage be found after the fact, it is the customer's responsibility to notify the delivering carrier immediately and file a freight claim with the delivering carrier about damage. If such an event should arrive the carton and packaging contents of carton must be saved for inspection by freight carrier claims adjuster. Customer and/or Purchaser agree not to hold Sysco Seattle liable for any damaged equipment that Sysco did not deliver on a Sysco truck, nor delay payment for project in full within account terms.
9. Items may not be returned to Sysco or the Sysco supplier w/o written authorization. All additional costs for the return including "but not limited to" (roundtrip ship cost, and re-stock fee) will be the responsibility of the customer unless determined otherwise.
10. Installation and final utility hook-up are by customer or their authorized representative.
11. Warranty related issues shall be dealt directly with factory and/or their locally authorized agent only. Sysco is not responsible for any warranty related problem that may arise.
12. Unless specified otherwise, any applicable tax will be additional.

NUOVA SIMONELLI® APPIA ESPRESSO MACHINE

The large copper five liter, 1500 watt boiler comes with a limited lifetime warranty. The massive grouphead is thermo compensated, and features double pre-infusion (soft infusion) technology developed by Nuova Simonelli. This machine comes with a hot water dispenser, and autosteam Smart Wand, which automatically steams or froths (adjustable) milk then turns off at a preset temperature. The Smart Wand is non-scalding; if you grab the wand while it's operating you won't get burned.

NUOVA SIMONELLI® AURELIA ESPRESSO MACHINES

Professional coffee machines that will last the test of time. They are solid and incorporate innovative technology that will endure for many years. Any measure is right with Aurelia: the units of the work surface are 90 mm and 135 mm. Programmable milk temperature and Smart Wand autosteam systems produce foamy and velvety milk. The Smart Wand is non-scalding; if you grab the wand while it's operating you won't get burned. Just push a bottom from the touch pad and Aurelia will carry out, automatically, a pre-selected automatic washing cycle.

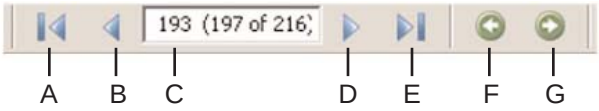
Paging through a document

You can navigate in Adobe PDF documents by paging through them and by using links, bookmarks and thumbnail pages. You can also retrace your steps to return to where you started.

Clicking on a product in the Index will take you to the page(s) where that item is located in the PDF.
To return to the index you can choose Go to Previous View (F.) or use the Keyboard Shortcut Alt+Left Arrow.



Navigation Controls

A. First Page **B.** Previous Page **C.** Current Page **D.** Next Page **E.** Last Page **F.** Previous View **G.** Next View

Keyword Search

Activates the Find command to find a complete word/part # or part of a word/part#.
Please note that in newer versions of Reader the Find command does not launch a dialogue box, but instead activates the Find toolbar.

Navigating with Links:

Clicking a link in a PDF is like clicking a link on a website. To follow a link:

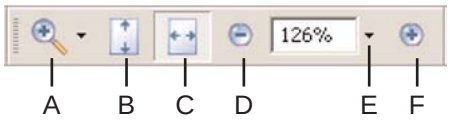
Select the hand tool , a zoom tool , or a selection tool

.

Position the pointer over the item until it changes to a pointing finger hand ☝ and click.

Magnifying and Reducing the Page View

The toolbar and status bar offer several methods for magnifying your view.



A. Zoom Tools **B.** Fit Page **C.** Fit Width **D.** Zoom Out **E.** Choose Zoom Level **F.** Zoom In

If you magnify a page to a size larger than the window, use the hand tool to move the page around.
